Healing the world begins with healing ourselves. As Ramana Maharshi reminds us: "The greatest service we can render the world is our own self-realization." This means that we become the greatest light in the world when we master our own ordeals and connect our creative potential with our spiritual power.

Becoming a prophetic person starts with a spiritual practice. It moves from silence to thought to word and action. When our words and actions are rooted in our spiritual commitments, we become a light in the world and a force for good. This workshop is an entry point into our own deep wisdom. Using the tools of music, poetry, story-telling, and imagery, we explore the landscape of our own experience, mining it for insight and ideas about the work ahead.
